THE CENTRAL HOTEL.

of San Antonio, being in the very center of the city, between the two depots, with street cars in front running to and from all public places, besides being the most convenient to business and the oldest hotel, under the present management is the cheapest first-class hotel in the city, at \$1 to \$1.50 per day. English, French, Spanish, German and Holland spoken. It is the office of stages and backs to Bandera, Pecos, El Paso, Elgin, St. Louis, Laredo, Llaneros, Sulphur Springs, Rockwell, Leon Springs, Boerne, Comfort, Center Point, Kerrville, Fredericksburg and other points north and south.

Under the title of the "Republic of Mexico" in 1882, was published in New York, written in English by Don Lorenzo Gueza. This work consists of one book containing 270 pages, and a map of the Republic, besides mentioning the names of all the cities, towns, ranches, mining districts, etc., the number of inhabitants in the principal cities and towns, the ancient history of the country with interesting episodes and incidents that present a great deal of interest to the reader. From the Monitor Republicano Bibliography, City of Mexico. 4-5

Reporting in Brief.

Man's back across track;
Engine roars; man crows;
Engine rushed; man squashed;
Yellow shorts; neck crushed;
Lawyer sweeps; jury sleeps;
Judge charges; jury lingers;
Judge hollers, five thousand dollars.

Two Cent Postage.

Assistant Postmaster General Hazen declares there had been a good deal of speculation as to whether the adoption of the 2-cent letter postage would cause a deficiency. He said that a careful calculation showed that if business did not increase as much as expected there might be a deficiency, but that under no circumstances could the deficiency be more than \$300,000.

The Rights of Patentees.

A decision of the Supreme court, rendered some time ago, but which to-day was published for the first time in the Gazette at the patent office, holds that the Government has no right to the free use of any patent, but must pay a royalty for any patent which it uses. Before this decision it was held that the Government had a right to utilize for its own benefit, free of cost, any patent issued by the patent office.

Gath's Picture of Hancock.

Mr. George Alfred Townsend's "Gath" thus writes of Congressman Hancock: "I saw General Hancock during the week walking in the afternoon. Time has hardly spared him. He looks nearly as large and almost as unwieldy as General Scott. His skin is of a copper-red hue and a white mustache lies upon it like a mutton chop with the wool outside roasting on the coals. I thought of the expression 'Go and get some of the hair of the same dog and put it on the bite.'"

A Strange Legend.

The Douglas family, to which Lady Florence Dixie belongs, are people of very sensitive organization. Her mother, Lady Queensberry, when, some years ago, her son fell down a crevasse among the Alps, where he perished miserably, had a vision while walking in the garden at Ventnor in which she saw him in a deep place with an injured foot, taking off his spring sideboot and throwing it upward with all his strength, in order that he might attract some one to the hole at the bottom of which he lay. It afterward appeared that the day and hour coincided with the time at which he was lost, and it was the finding of such a boat that ultimately led to the discovery of his remains.

Love in St. Louis.

Impatient love has brought a man from San Francisco to claim as his bride a lady who is already a wife, but whose husband is a wayward traveling man with a lover in every port. She sued for divorce about three months ago and sent word to an old flame that the little word "yes" that he longed to hear four years ago could now be heard if he would come 1500 miles or more to hear it. He needed not a second invitation, and last week he left of absence from the large saddle firm by which he is employed and came to St. Louis. Without changing his apparel or brushing the dust of States and Territories from his coat, he rushed to the abode of his first love. A second more and he would have gathered her to his manly bosom, but she waved him back.

"Not yet, not yet," she murmured. "And is this my reward for coming all the way from the Pacific slope?" he cried, picking up his grip sack. This time she reached for him and bade him listen while she told him her story. The case would be completed in one short week after which delay would not be necessary. The pill was a bitter one for him to swallow, as he had not expected that the chances of his business hunt on the list of a cold-blooded judge, bald and wrinkled. She pacified him, however, and he is waiting in a St. Louis hotel. The case will be on this week in the Circuit court, and he will sit by her side in the court room and help her bear the agony of hearing her husband's past four years of life handed without gloves by her lawyer.

Cause of Failure.

Want of confidence accounts for half of the business failures of today. C. Schmeck, A. Dreiss and L. Orzabal, druggists, are unable to fail for the want of confidence in Dr. Rosar's Cough and Lung Syrup, for they give away a bottle free to all who are suffering with Coughs, Colds, Asthma, Consumption and all affections of the Throat and Lungs.

Artistic Improvement.

Mr. C. H. Mueller had added two beautiful show windows to his store on Commerce street. In one is shown very fine water-color paintings, in the other a select stock of artists' materials. His stock of artists' and painters' materials is complete and embraces material for oil and water color painting, lead pencil drawing, crayon and pastel painting, porcelain and china decoration, chromo, photography, wax flowers, decorative art, coach painting, Artists' fine brushes, mathematical instruments, oil and water color paintings, engravings and chromo paper, anything yet seen in Texas. Students and lovers of art in its various types should see this elegant stock. He has the largest and best selected stock of picture frames and moldings, all sizes, ever brought to San Antonio, which he sells at extremely low figures. He has the sole agency for the well known and most durable "Aesthetic" paints ready for use. The color and durability of these paints are admitted by those who are authorities in such matters to be the highest grade in the market. His stock of oils, paints and wall paper is complete and his supply of window glass of every size and description is very large. By calling at 25 Commerce street, the public can be assured in any of the lines mentioned as well as in the low prices, which are a rule of the house.

SALICYLICA.
No More Rheumatism, Gout or Neuralgia.

Immediate Relief Warranted.
Permanent Cure Guaranteed.

Five years established and never known to fail in a single case, acute or chronic. Has no prominent physicians and druggists for the standing of Salicylica.

SECRET
The only dissolver of the poisonous uric acid which exists in the blood of Rheumatism and Gout patients. SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments and soothing lotions will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvellous effect on this acid and so removes the disorder. It is now exclusively used by all the celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 85 per cent. cures in three days.

REMEMBER
that SALICYLICA is a certain cure for RHEUMATISM, GOUT and NEURALGIA. The most intense pains are subdued almost instantly.

Give it a trial. Relief guaranteed or money refunded. Thousands of testimonials sent on application.
